

Philosophy and Mathematics in the Work of Bernard Bolzano

15 - 18 April 2010

Hello to everyone - there is a draft programme attached to this mail. There is slightly more information on the 'Draft Programme' link from the webpage and the draft programme linked there will be, from time to time, updated.

http://www2.warwick.ac.uk/fac/sci/dcs/people/steve_russ/pmb10

The Forum has information about what goes into a 'Special Session' (or 'detailed treatment'), and raises a question about papers (and presentations) auf Deutsch. (By all means join in, or create(!), the discussionfollow the Forum link on webpage and then it is Forum no. 3995 with password 'Praha10' .)

Thanks for some full papers already received!

We are seeking to book a room in a suitably 'period' cafe/restaurant close to the ÖKF (for Thurs eve and Fri lunch). The top of my list at present is Cafe Louvre - has anyone better suggestions? Please email me - or better still - start a new thread on the Forum.

Best wishes

Steve
