

More a salient  
than onward shock,  
poverty-emitted grasp of trees  
taller than their assimilation

verticals straitened like a  
stiffness combing its length  
from grass not easily speared

catalyst sources are such  
slender lines within prescription,  
a gift to the brief of this wood

slants small by one yard, the space  
brooks a proportion of origin

through rifts and no  
unslack gathering, in  
deep foliage rejoicing  
less in cleft than  
overlap quiver

slippage the sooner pledged  
to rift: that any gift  
is no path accuser

An ash-tree's lean keys,  
turn in the rift

given a poor aloft upward  
slanted against asperity

no stint falters, a chasm  
at its fruiture, sensing  
gift, same in slights

Everything alive, induce  
mere glimpse, slender enough  
to source a glimpse of  
more than everything

Incompletable, ends  
with counter-expectation  
unless it committed  
what a slip of  
finals always al-  
ready began repletable

Breached unsealed, a  
relation of receptors or  
no recapture: striations  
of rapid source

slant sting of premature  
healing, or how a wheeling  
creation hones its groove

the gulf's unending scope  
will be abyss-canted,  
not dropping off  
scrape once granted  
a rifted-between

the breach harshly dug out,  
scarcely anything's refuge  
but unbarely, now  
crested below finer shavings:  
what divided was  
shaft (all frontage)  
of impact gift

Least *adds*, so let rift  
bargain (curtain) with defeat,  
does revet (touch) the difference

the centre is poked by  
shielding a skinny stick

past rift lies an avenue  
into the long crouch,  
along it for all treeless  
steepnesses above

endure an outskied  
breach, plead joy  
at a full connection  
meagre in leap, but  
pushes to the chief stalk  
of what feeds the gap,  
slanting across  
tenderer ground than  
given (rifts) enough
