

Connections

Summer Meeting of the IOP Nonlinear & Complex Physics Group

Tuesday 4th June 2013, St Hilda's College, Oxford

A free event to promote interdisciplinary exploration of complexity and nonlinearity.

Keynote by Ig Nobel prize winner Prof. Robin Ball
'Ponytails, Catapults and Chaos: Physics of Hair'

Followed by a public event:

Market forces, ecology and evolution: What have physicists accomplished? with Mark Buchanan and Doyne Farmer

First call for papers

To complement speakers in physics, economics, biology and social science we invite delegate contributions from researchers at any career stage.

Please register for the event at
