

UPDATE ON VASCULAR RESEARCH

**Friday, 11th June, CSB Room 20064,
0900 – 1300 hrs.**

9.00-9.25	<i>Coffee</i>	
		Chair: Paul Thornalley
9.25-9.30	Introduction	Paul Thornalley
9.30-9.40	Mingzhan Xue	Dietary activators of ARE-linked gene expression for good vascular health
9.40-9.45	Discussion	
9.45-9.55	Naila Rabbani	Glycation and lipoprotein metabolism
9.55-10.00	Discussion	
10.00-10.10	Daniel Zehnder	Uraemic cardiovascular disease.
10.10-10.15	Discussion	
10.15-10.25	Michelle Miller	Inflammation and Sleep
10.25-10.30	Discussion	
11.30-10.40	Martin Feelisch	Nitrogen oxide signalling in health and disease
11.40-10.45	Discussion	
10.45-10.55	Chen Ji	Spatial variation in iodine status and salt intake in the world
10.55-11.00	Discussion	
11.00-11.10	<i>BREAK</i>	
		Chair: Franco Cappuccio
11.10-11.20	Donald Singer	Personalising medicine
11.20-11.25	Discussion	
11.25-11.35	Dan Mitchell	Glycomics and inflammation in and around the vasculature
11.35-11.40	Discussion	
11.40-11.50	Guerman Molostvov	Calcium-sensing receptor and its role in the vascular system
11.50-11.55	Discussion	
10.55-12.05	N-B Kandala	Spatial variation of predictors of prevalent hypertension in Sub-Saharan Africa: A case study of South-Africa
12.05-12.10	Discussion	
12.10-12.20	Bernadette Fernandez	Investigations on the Fate of NO in vivo
12.20-12.25	Discussion	
12.25-12.35	Paul Thornalley	Protein damage and antistress gene response – partners in vascular research
12.35-12.40	Discussion	
12.40-12.48	Franco Cappuccio	Sleep duration predicts cardiovascular outcomes
12.48-12.53	Discussion	
13.53-13.00	Conclusion	
13.00-14.00	<i>Lunch on the 2nd floor gallery</i>
