

**Tuesday 12th March 7 pm onwards
in the Virgins & Castle:**

Meet The Neuroscientists

As part of International Brain Awareness Week neuroscientists from the University of Warwick will be in the Virgins and Castle to talk to people about the brain and nervous system.

If you don't know your dendrite from your axon, or if you ever wondered why the brain's so lumpy, then stop by and buttonhole a brain boffin.
