

# Directions to MB0.07

Ground floor of the **Mathematical Sciences Building** (note that this is the home of the *Statistics* department and shouldn't be confused with the home of the Mathematics department, which is the Zeeman building.)

[Here is MB0.07 on the interactive campus map.](#)

- The Mathematical Sciences building is behind the Computer Sciences building.
- Get to it by going down the alleyway between IMC and Computer Science (where the "red rocket" coffee van is).
- You may need your ID card to enter the building.
- The room is on the ground floor on the left.
