

Summer Term 2008/09 Colloquia

Organisers: Volker Betz & Brian Bowditch

Colloquia take place on Friday afternoons at 4.00pm in Lecture Room B3.02 of the Mathematics Institute. They are directed towards a general mathematical audience. In particular one of the functions of these colloquia is to inform non-specialists and graduate students about recent trends ideas and results in some area of mathematics or closely related field.

- | | |
|----------------------|---|
| Friday 24 April 2009 | Saul Schleimer (Warwick) <i>The universal Cannon-Thurston map</i> |
| Friday 1 May 2009 | Michel Boileau (Toulouse) <i>Dehn fillings and geometric structures on 3-manifolds</i> |
| Friday 8 May 2009 | Dieter Kotschick (LMU Munich) <i>TBA</i> |
| Friday 15 May 2009 | Jonathan Brundan (Oregon) <i>Khovanov's diagram algebra and the general linear subgroup</i> |
| Friday 22 May 2009 | Detlef Dürr (LMU Munich) <i>From ontology to noncommutativity: Boltzmann Born and Bohm</i> |
| Friday 29 May 2009 | Vassili Gelfreich (Warwick) <i>Fermi acceleration</i> |
| Friday 6 June 2009 | Ben Leimkuhler (Edinburgh) <i>Controlling molecular dynamics</i> |
| Friday 12 June 2009 | Camillo De Lellis (Zürich) <i>Minimal currents in codimension larger than one</i> |

Tea is served in the Common Room of the Mathematics Institute from 3.00–4.00pm.
The Colloquium will be followed by an informal reception (drinks and snacks).

Additional Colloquia may be added please consult our website
