

Ergodic Theory and Dynamical Systems: 30th anniversary of the journal

Monday 6 - Friday 10 September 2010

Organisers: Mark Pollicott, Klaus Schmidt (Vienna), Sebastian van Strien and Peter Walters

This will be a general research meeting, emphasizing all of the themes of the symposium and celebrating the 30th anniversary of the founding of the journal Ergodic Theory and Dynamical Systems. However, this meeting is not merely celebratory, but an opportunity to help look forward to the future development of the subject.

The meeting will start after lunch on Monday, 6th September and end in the early afternoon of Friday, 10th September. The programme will consist predominantly of research talks, but there will also be activities which give an opportunity to reflect on the history of the journal.
