FLAVOUR WEEK FEEDBACK SUMMARY

Lecturer: Steve Boyd

1. How did you rate these lectures overall?

(not to my taste) (excellent)

	0	1	2	3	4	5	6	7	8	9	10
Flavour											
Neutrino											
Astroparticle											
LHC											
Detector-Silicon											
Detector-PID											
Detector-Calorimetry							x				

2. How was the level of content?

(too easy) (too difficult)

	0	1	2	3	4	5	6	7	8	9	10
Flavour											
Neutrino											
Astroparticle											
LHC											
Detector-Silicon											
Detector-PID											
Detector-Calorimetry					x						

3. Did you like the subject material?

(boring) (very interesting)

	0	1	2	3	4	5	6	7	8	9	10
Flavour											
Neutrino											
Astroparticle											
LHC											
Detector-Silicon											
Detector-PID											
Detector-Calorimetry							x				

4. Was the subject material useful?

(useless) (essential)

	0	1	2	3	4	5	6	7	8	9	10
Flavour											
Neutrino											
Astroparticle											
LHC											
Detector-Silicon											
Detector-PID											
Detector-Calorimetry							x				

5. The mix of theoretical and experimental material was

(too theoretical) (too experimental)

	0	1	2	3	4	5	6	7	8	9	10
Flavour											
Neutrino											
Astroparticle											
LHC											
Detector-Silicon											
Detector-PID											
Detector-Calorimetry						x					

<u>Additional Comments :</u> what was good, less good, what in your opinion should be changed?

- Interesting and good level
