Manufacturing Industries:

- **K&A in Detroit**
- **According to a recent survey conducted by Barclays, only 6pc of people aged from 16 to 23 would consider a career in manufacturing. Around half of manufacturing firms in the UK have told the bank that they are having difficulty recruiting new employees. The research has predicted that an improvement in recruiting strategies could lead to manufacturers adding GBP6.1bn to the UK economy every year by 2023.**
