Steps to update your UK bank details online. Please note, students need to be enrolled before they can upload their bank account information.

- Login to http://warwick.ac.uk/evision
- From your student finance page select the "Providing Your Bank Details" tab on the left
- Then click on the "Collecting bank details for payments to students" screen.
- Select the PG Payments (payments for all PG students except PGCE) from the drop-down list and continue to enter your bank sort code and account number.

Once bank details are uploaded students cannot change them without contacting us first to delete what's online before entering new information. Students should email pgscholarships@warwick.ac.uk if they need to amend their bank account details.
