

What's the question (1)? Job cards

Starter

What's the question (1)?

Pick a job card from the bag for the class to work on.

Individually, think when someone doing the chosen job might give the answer 0.7.

Write a brief description of your idea.

0.7

This is the answer...

What is the question?

Exchange the descriptions from your group with another – pick the one you think is most interesting.

Each group read out the one they have chosen as the most interesting.

Vote which is the best in the class.

What's the question (2)? Job cards

Starter

What's the question (2)?

Pick a job card from the bag for the class to work on.

Individually, think when someone doing the chosen job might give the answer 2 hours.
Write a brief description of your idea.

2 hours

This is the answer...

What is the question?

Exchange the descriptions from your group with another – pick the one you think is most interesting.

Each group read out the one they have chosen as the most interesting.

Vote which is the best in the class.

What's the question (3)? Job cards

Starter

What's the question (3)?

Pick a job card from the bag for the class to work on.

Individually, think when someone doing the chosen job might give the answer 15%.

Write a brief description of your idea.

15%

This is the answer...

What is the question?

Exchange the descriptions from your group with another – pick the one you think is most interesting.

Each group read out the one they have chosen as the most interesting.

Vote which is the best in the class.

What's the question?

These twelve lesson starters are designed to link thinking about careers to activities suitable for the mathematics classroom.

Starters

What's the question (1), (2) and (3)

Planning for teaching

Cut out and laminate the cards **What's the question?** and put each set in a bag. Eighteen different jobs are featured in three lots of six and pupils are asked to reflect on how similar mathematical topics can crop up in a wide variety of different work contexts.
