Notes and sources:

Use of this dataset should be attributed to *The British Parliamentary Constituency Database, 1992-2005,* Release 1.1 compiled by Pippa Norris.

The dataset could not have been compiled without the help, advice, and data-sets provided by many colleagues including Ron Johnston, David Denver, Rosie Campbell, Joni Lovenduski, Colin Rallings, Michael Thrasher, and Charles Pattie. I am also most grateful to the Press Association.

It would be appreciated if you would let me know of any errors or omissions in this release of the dataset (<u>Pippa Norris@Harvard.edu</u>) and these will be amended in subsequent versions. Release 1.1 includes minor corrections for Barking, Corby, Hampshire East, Harlow, Nottingham East, Ross, Skye and Lochaber, Stalybridge, Glasgow North East, Regents Park, and Poplar and Canning Town. A second version will be released in late summer 2005, including any official corrections to the 2005 election results made by the Press Association.

The dataset covers the results of the 2005 general election for the 628 British parliamentary constituencies. For comparison, it also includes comparable historical results in the 1992, 1997 and 2001 general elections, as well as basic social and demographic indicators derived from the 1991 and 2001 Census data. The dataset does not include the election results for the 18 constituencies in Northern Ireland.

The recent boundary revisions in Scotland means that estimated results for 2001 are used for comparison in this region. It should be noted that at present the dataset lacks the 2001 census data for the revised Scottish constituency boundaries, as this information has not yet been released by the UK Census. Estimated turnout figures are also not available for the new Scottish seats. Where these variables are consistent with England and Wales, this data will be merged in due course.

Information about the notional '1992' vote under the revised boundaries in the UK is derived from Colin Rallings and Michael Thrasher *Media Guide to the New Parliamentary Constituencies* (BBC/ITN.PA News/Sky 1995).

Information about the notional '2001' vote under the revised boundaries in Scotland is based on David Denver, Colin Rallings and Michael Thrasher. Eds. 2004. *Media Guide to the New Scottish Westminster Parliamentary Constituencies.* Plymouth: University of Plymouth.

The classification of the names, gender and ethnicity of prospective parliamentary candidates was collected by Rosie Campbell at Birkbeck College.
