

Windows 7

the BIG move

Computers:

Files:

Printers:

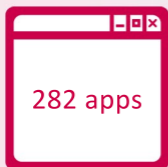

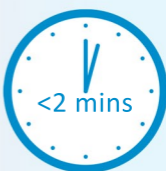

All migrated in just over a year.

with BIG improvements:

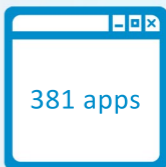

Windows **XP** >>>> Windows **7**

Average login times reduced

99 more apps supported

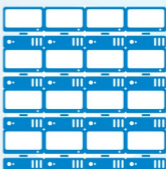

45% reduction in incidents

64% fewer virus infections

20% more PCs supported

and BIG benefits:

The new printer system that relies on Windows 7 has **saved 44 trees worth of paper** so far...

Under the new system we can provide **better support for macs** and for machines running Linux

The new laptops and PCs purchased are more efficient, **cutting Warwick's carbon emissions**.....

Using Windows 7 means we can support the latest versions of software, and **stay ahead of the curve**

The new system is very stable - there have been **no major login problems** since we made the switch...
