Remarks & Queries (from 2016)

1. The first priority is to decide which fixtures on last year's list we want to replace.
3. The question of home and away has become strange: we are virtually a "wanderers" or "ramblers" team on Sundays now. Are any of them expected to reverse grounds from 2015? Are we happy with the situation? For a lot of South Asian students away fixtures have the benefit that they see more places, I guess.
4. Suggested procedure is that we divide the season up and pursue confirmations and replacements, having clarified preferences. I could take April-June.
5. The number of April and September fixtures has gone down. Are we happy with that?
6. Do we want an early season intra-mural/trial game?
