School of Engineering
ANDREW LITTLE LECTURE SERIES**

**We don't know who discovered water, but we know it wasn't fish":
an attempt to reconcile education and creative thought**

Julian R G Evans

Professor of Materials

Dept of Chemistry, University College London

Thursday, 11th November 2010 at 16:00

Room S.021, Social Studies Building

Abstract

I have chosen this Marshall McLuhan quotation to ask how we can possibly find anything new in a subject in which we are fully immersed. Our education has prepared us for making discoveries but has it also inhibited the discovery process?

Julian Evans:

Julian Evans has a background in metallurgy, polymers and ceramics and works on powder processing, combinatorial methods, solid freeforming and polymer-clay nanocomposites.

Light refreshments will be available after the talk.

ALL WELCOME
