# harmony power module

Harmony is a versatile desk power solution, specifically designed to meet the increasing power and everyday communication needs of a working office. The harmony features integral fuses which are fully compliant to current safety regulations and is configured with segregated power, voice & data choices to suit different workstation requirements. Harmony can be used in conjunction with our under desk modules to provide greater power solutions and is fitted to the edge of desk with 2 'C' clamps making it functional yet non-intrusive to the working desk. To complement the growing trend of white desking & accessories, we are pleased to announce the introduction of silver with grey socket fascias/end caps.

Phono socket

Neon Switched

Individually fused

Angled sockets

15 pin SVGA socket

RJ45 Cat5e Data Socket

Adhesive Kit

The adhesive strips have been rigorously tested to ensure that they work on a variety of surfaces.
Please check with the furniture provider as to the suitability of the surface finish. 1 kit is required
per module. DPG will not be held liable for any damage resulting from the normal use of this product.

code 440006

If you require any other configuration of power, voice and data please contact our office and you will be provided with a price and despatch date.

NB DPG cannot accept any responsibility or liability for providing category 5e performance in products supplied. We will however fit category 5e specification components where specified.
