

Teaching Excellence Framework: Year two

Statement of findings The University of Warwick

UKPRN: 10007163

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics, supplemented by the submission, indicate that most students achieve excellent outcomes. There are high levels of student satisfaction and student progression through their studies and into employment, in line with the University's benchmarks.

The Panel considered the University submission in relation to the TEF criteria and its judgement reflects, in particular, evidence of:

- student stretch within and beyond the curriculum which is exemplary for students who engage with it
- a curriculum focus on research informed teaching enabling students to engage with, and be involved in, research and scholarship
- high levels of engagement with employers and a high level of demand for Warwick graduates
- a culture that recognises and supports the development of teaching excellence
- high quality physical and digital resources underpinned by significant and sustained investment.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Silver award.
